EDUCATION

KIET Group of Institutions September 2024 - May 2028

Bachelor of Computer Science & Engineering, CGPA: 8.2/10.0

St Joseph College, Lucknow July 2022

Council for the Indian School Certificate Examinations(Class 12), Percentage: 90%

EXPERIENCE

WECOFY (We Code For You) November 2025 – January 2026

Web Development Intern *Remote*

- Built and deployed a full-stack legal chatbot using Next.js, Node.js, Express, and MongoDB, improving page load performance by 30%.
- Integrated OpenAI APIs for automated legal document generation, enhancing user productivity and engagement.
- Designed responsive UI using Material UI and optimised backend APIs for scalability and performance.
- Collaborated in an agile development environment using Git for version control and team coordination.
- **Internship Certificates**

NullClass October 2025 – November 2025

Front-End Development Intern *Remote*

- Developed responsive and high-performance UI components using modern frontend technologies.
- Improved application usability and performance through optimised rendering and clean code practices.
- Worked in a collaborative team environment following version control and agile methodologies.
- **Internship Certificates**

PROJECTS

AnonWave: Anonymous Messaging Platform

TypeScript, Next.js, Node.js, MongoDB, NextAuth, Zod, Tailwind CSS

- Developed a secure anonymous messaging platform with OTP-based email verification and authentication using NextAuth.
- Implemented protected sessions and validated REST APIs to ensure secure and scalable data handling.
- Built a dynamic dashboard for message management with a focus on user privacy and performance.
- **GitHub | Live Demo**

RedPulse: Blood Donation Application

Next.js, Node.js, Express.js, MongoDB

- Built a full-stack platform enabling real-time coordination between donors, recipients, and hospitals.
- Designed a secure authentication and profile management system for seamless user interaction.
- Developed REST APIs to handle end-to-end blood request workflows and tracking.
- **GitHub | Live Demo**

LANGUAGES AND TECHNOLOGIES

Programming Languages: Java, JavaScript, TypeScript, SQL

Frameworks & Libraries: React, Next.js, Angular, Node.js, Express.js, NextAuth

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, Vercel

ACHIEVEMENTS

- Developed a Quiz Generator for Dignity Education using Next.js, used by 100+ students.
- Served as Web Coordinator at Technocrats (KIET), organising technical events with 300+ participants.
